

A Forgotten Color  
London James

*Bring me now to older clouds  
And tell me that your secret's found  
And let me feel what quicker mends  
A tear in the sky or an earth that's rent*

*Speed my cloud on quick ascent  
And show me what is heaven sent  
Or shine to show that heaven's nigh  
A deeper earth or brighter sky*

In fabled mold ancestral leap*
